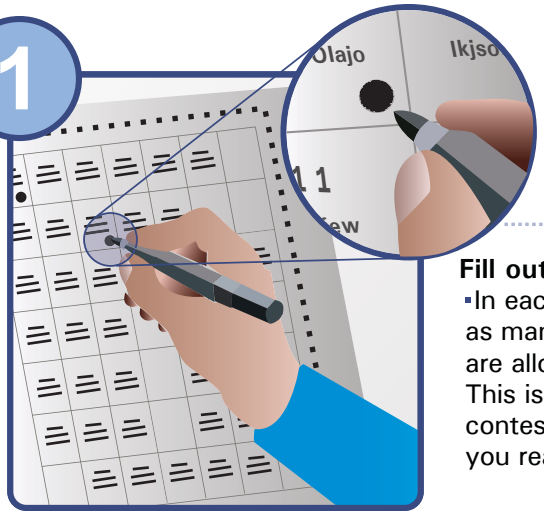
SAES1800

How to vote with the SAES1800

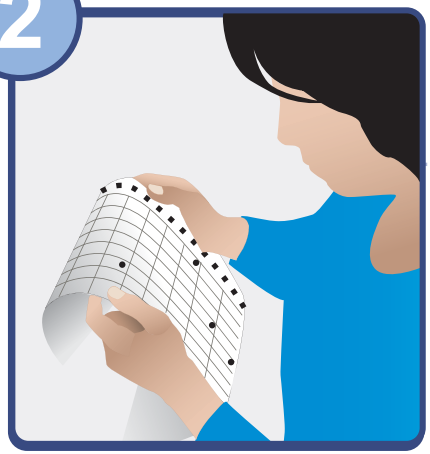
1



Fill out your ballot.

- In each column fill out as many ovals as you are allowed to. This is different per contest, so make sure you read the instructions.

2



Review your ballot.

- Before you place your ballot into the PCOS, double-check your votes.

3

Cast your vote.

- Introduce the ballot in the PCOS. It doesn't matter if you do it upside down or bottom first.

4

Closing.

- At the end of the process, the voting machine will count all the votes cast and produce thirty copies of the election returns.
